

VOTE

TO PROTECT YOUR **PENSION**

Look out for your ballot paper asking you to vote for industrial action to protect your pension - your retirement is at stake.

We are asking you to vote **YES** because proposed changes to your pension scheme simply aren't fair.

**UNISON**
the public service union

This is about your future, about the sort of life you want when you stop working. You pay into your pension to give you security and dignity in retirement.

These proposed changes will take that dignity and security away. They mean that if you earn over £15,000 a year, you will pay more for your pension. And most of you will work much longer.

Changes recently imposed mean your pension is already worth less and you will receive less when you retire.

We say enough is enough

Not a penny of this major increase in your contributions will go towards improving your pension scheme. Instead it will go to the Treasury to pay for the excesses of the bankers.

Vote **YES** – you can't afford to do anything else.
