SUPPORTED BY: WALTHAM FOREST TRADES COUNCIL

## WE ARE WALTHAM FOREST

On 1 September over 4,000 people came out to protest against the English Defence League marching in Walthamstow. People from all sections of our community united in peaceful determined protest to send a powerful message that the EDL is not welcome here. The *Waltham Forest Guardian* front page said 'Community protestors massively outnumber far right mob.' It was an absolutely clear rejection of the EDL's politics of hate and this violent, fascist organisation suffered a very severe defeat on that day.

■ Yet, despite our clear message to the EDL, their shamed and humiliated leader Tommy Robinson has announced plans to march again in Walthamstow on Saturday 27 October.

■ In desperation the EDL have deliberately called a march to coincide with Eid, an important Muslim festival.

■ This is a complete abuse of our community. We have a right to live our lives in peace without any threat from fascist groups like the EDL. We will not allow these racist thugs to intimidate us or denigrate the values and beliefs of our residents.

We welcome the leader of the Borough Council in calling for united opposition to the EDL on our streets. We urge everyone to **again** join us in peaceful protest on Saturday 27 October. And this time, we are also calling on people from around the country to come and stand shoulder to shoulder with the residents of Walthamstow to defend our multi-cultural community. Together, united, we will stop the EDL. **Get involved today!**
