**SOCIAL HOUSING**

**NOT**

**SOCIAL CLEANSING!**

NO insecure private renting,

NO rogue landlords, NO to

being forced out of London

Thousands of people are facing the threat of repossession & eviction, struggling with the bedroom tax, council tax & benefit cap.

Families are battling soaring private rents; rogue landlords & letting agents, discriminating racially & charging huge fees; poorly regulated, short term & insecure tenancies.

Shelter's own research shows how the private rented sector is systematically failing families.

**We must STAND TOGETHER, & FIGHT for our right to housing security**

This growing Housing Campaign started with Focus E15 Mothers, from (East Thames run) Focus E15 Mother & Baby Unit.

After cuts shut the unit & eviction notices were served, we came together to fight the Council's plans to move us into private rents, out of London; to unknown cities, 100s of miles from our family, friends, colleges, nurseries & support networks.

As a result of our campaign we got the £41,000 funding temporarily re-instated and have won housing offers in London, although they are 1yr, insecure private rents.

**Focus E15 Mums and Focus Residents are determined to STAY UNITED & continue the campaign, fighting for SECURE SOCIAL HOUSING in East London where we need to live, close to family, friends & support networks.**

## Please help us keep up the pressure
