**L**ocal Government trade Unions are calling for an end to the pay cap that has seen public sector pay cut by 20% in real terms since 2010.

Unions have made a claim for 5% in 2018 to stop the rot in pay, and recover a small part of what Local government workers have lost.

The Local Government Employers are consulting Councils on their response to the claim with a "roadshow". In London this will be at the London Councils' office at 59<sup>1/2</sup> Southwark Street on Monday 14 August 2017.

Join the lobby to call on Councils to meet our offer and campaign with us for the funding that Local Government services need.
