

# The Spirit of Cameron's Xmas!

Silent night, pay is not right

That's why we're here, here in this fight

One pound an hour is all we ask for

That's just enough as we see prices soar

After four years of pay cuts

After four years of pay cuts.

Services cut, many jobs gone

But we are here, we carry on

Keeping your services going the same

Working unpaid though it's not us to blame

As workers we pay for the crash

As workers we pay for the crash

We've had enough, our pay has crashed

Overtime gone, fuel payments trashed

We've kept on in silence but now we'll speak out

We'd like you to join us and give us some clout

Fair pay for council workers

Fair pay for council workers.
