residents
- one FULLY
FUNDED GENERAL
DISTRICT
HOSPITAL

If our hospital needs
improvement then:

- RESTORE NURSES' PAY,
- PAY PORTERS AND DOMESTICS A LIVING WAGE
- CANCEL THE PFI DEBT.

The new Tory government WILL drive privatisation into every service across the NHS

Come to the static demo
Whipps Cross Road Gate
Wednesday June 3rd
12-2pm

It's no accident that years of privatisation in all its guises, under governments of all colours, has undermined our NHS. Private profiteering companies suck the lifeblood out of the public purse for their own gain.

Nurses suffer pay down-banding. Some porters eke out a living on zero-hour contracts. Domestic workers struggle on different agency rates for the same job. At the same time overpaid high-handed managers make unrealistic, even bullying, demands.

Yet, despite such difficulties the staff at Whipps Cross do a marvellous job. Their loyalty and commitment is recognized by thousands of grateful patients, and even by the CQC - at least in words.

But Whipps Cross, all its staff and everyone in our borough face a real Emergency.

We urge everyone to come at lunchtime to join us in preparing a mighty campaign of trade unions and community. Let's prepare to save our hospital

The response to the critical report of the CQC and the draining of finances due to exorbitant demands of PFI contractors at the London Hospital could pose a threat to the very existence of Whipps Cross.

There are rumours of a state-of-the-art hub, or something - but not a General Hospital. We cannot let this happen.
